- **Low Maintenance**

GATES

- **CLASSIC APPEARANCE**
- **PRE-ASSEMBLED**
- **LEFT OR RIGHT HAND OPENING**
- **KEY LOCKABLE MAGNA-LATCH**

POWDER COATING – CARE AND MAINTENANCE

Just as washing your car is important for removing dirt and grime, your powder coating needs to be given a regular wash to keep it looking in great shape. The effects of ultra violet light, atmospheric pollution, general dirt and grime and airborne salt deposits can all accumulate over time and should be removed at regular intervals. As a general rule cleaning must take place every six months. In areas where pollutants are more prevalent such as beach front houses and industrial or geothermal areas then a cleaning program should be carried out on a more frequent basis eg. every 3 months.

MANUFACTURED BY ANCHOR WIRE LIMITED, AUCKLAND, NEW ZEALAND

This fence complies with the Fencing of Swimming Pool Act 1967. The manufacturer however accepts no responsibility whatsoever for any accidents or mishaps in the construction of the fence or in the use of these products. It is the owner's responsibility to ensure that the fence's construction complies with the local body regulations.

WARNING: The regulations are subject to individual local body interpretation. It is up to the owner to ensure in each individual case that the pool fence meets the requirements of their local Council. This is the responsibility of the owner and should be confirmed by Council prior to installation.
