INTERCOMS

WHEN COMMUNICATION AND SECURITY ARE REQUIRED,  
FARFISA INTERCOMS ARE THE ANSWER

A home intercom system is not only a matter of technology, but also a matter of design.

Italian designed and manufactured, Farfisa intercoms are easily integrated into interior and exterior architecture.

DESIGN FOR EVERY DAY USE

A **successful installation** is determined by how well the product is designed and integrated into the environment. **Integration is the key to aesthetical success.**

Farfisa intercoms offer the unique capability of a **fully integrated call station and keypad** - rarely seen on intercoms today!

All call stations, camera modules and keypads are of **brushed aluminium finish**, making them **durable and weatherproof.**

Your Farfisa intercom is capable of being integrated into your interior and exterior architecture, making it the number one choice for **functionality and design.**

**When communication, security and style are required, nothing beats Farfisa Intercoms.**
