

House of Bamboo® offers a unique range of bamboo and related materials of natural beauty for versatile outdoor and interior applications. It is a treasure trove for professionals and home and garden lovers seeking to create imaginative, affordable and environmentally appropriate décor and landscape solutions.

House of Bamboo products are Australia's most varied collection of classic and new low maintenance materials that are designed to create ambience and complement any setting. These materials include Natureed® and various Bamboo Surrounds®, providing a natural backdrop or feature in homes, gardens, balconies, patios and pool settings. They enable you to create screening, fencing, cladding, and unique overhead shade solutions (Shady Ideas®).

House of Bamboo materials are very easy to work with and deliver a natural look at a competitive price.

We invite you to visit our showrooms or website for more products, ideas and information.

 1.83m(h) x 2.4m(l)

Natureed®

Natureed® is a new, durable reed material, attractive, low priced and easy to install. Resistant to moisture, termites and with low flammability, Natureed® is ideal as cladding to transform old paling, metal or wire-mesh fences, or to structure new freestanding fences, privacy or overhead shade screens and windbreaks. The reeds are paired together in varied lengths with non-rusting cadmium wire for strength, allowing light to filter through and good air-flow. Our "Working with Natureed" pamphlet provides details on dimensions, popular applications and installation methods.

1. Natureed® clads townhouse high fence/wall for Balinese ambience. Complemented with bamboo slats (Sheer Magic Landscaping) 2. Natureed® poolside charm achieved by hiding existing metal fence 3. Natureed® cladding and capping transforms old paling fence! 4. Natureed® privacy and natural elegance for swimming pool surrounds 5. Natureed® wall cladding and overhead shade enhances city living (Patio design, featured in Inside Out)
